SUBJECT: JTA SYSTEM VERSION 4.33 RELEASE

The purpose of this information bulletin is to inform you that the Workforce Investment Division (WID) will release the Job Training Automation (JTA) System Version 4.33 on the weekend of April 29, 2005. The planned federal implementation of Common Measures necessitated these changes. For Program Year (PY) 2005–06, the Department of Labor will continue monitoring the State based on the 17 performance measures; however, some definitions will change. For more information on the Common Performance Measures please refer to Department of Labor Training and Employment Guidance Letter [28-04](#).

This release contains the addition of the “Enter WIA Youth Test Scores” (EYTS) program. The program will track the test scores, which are required for the new Youth Literacy and Numeracy Gains performance measure. We do not anticipate implementation of this measure until PY 2006–07, but the WID will be working with the Workforce Community to evaluate the effect of this measure during PY 2005–06, and plan for implementation. Also, the release contains other changes necessary to complete the revised calculations for some measures.

The JTA system software will be available beginning Monday, May 2, 2005. A detailed description of the software changes is attached.

Note To Timeshare JTA System Users—This release will be installed over the weekend. Please do not access your system from Friday, April 29, 2005, at 5 p.m. through Monday, May 2, 2005, at 8 a.m.

Note To Standalone JTA System Users—The release files will be available on Wednesday, May 4, 2005, on the FTP site at endor.jta.edd.ca.gov and on the timeshare server at jta.cahwnet.gov.

Should you have any questions regarding this JTA system release, please call the JTA Help Desk, at (916) 653-0202.

**Log #6001 LWIA (Load WIA Activity Form)
LWIG (Load WIA Goals Form)
LWIT (Load WIA Activity Exit Form)**

Added functions to display client's name and "Social Security Number" when an error is detected in a record during the edit check process.

Log #6057 LYTS (Load WIA Youth Test Scores)

Created new program to load flat, ASCII files into the "WIA Test Table" on the Local database. This program is run to load the data that is entered on the "EYTS" screen. This program allows users to download data from their case management systems and upload the data to the JTA database. The Locals must name each file, as "LYTS_YYYYMM_99.xtr", where "YYYYMM" indicates the corresponding month and year the file is created, and 99 is a sequential number to distinguish between multiple files for that month.

Log #6105 PLWIB (Print WIA Base Wage Report)

Fixed program to prevent it from standing in the "Running Mode." Users encountered this system malfunction when attempting to obtain an output report for "Universal Clients" only.

Log #6055 PPGS (Print Program Status Report)

Fixed program to retrieve the latest approval record with the latest "Status Change Date" entered in the system, and the lowest "Approval Code" using the correct Date.

Log #6050 PWIL (Print WIA Listing)

Log #6043 XWID (Extract WIA Data)

Added an edit that will prevent users from running the "XWID" and create a transfer file beyond the month that it is due. However, when the "Create File" is not selected, the program will allow users to run the XWID for the current month. Example if XWID is due

on 20th of May/05 for the period ending of April 05, allow a run, but prevent it from being run for the ending period of May/05 unless the "Create Transfer File" is not selected.

Log #6080 XWIP (Extract Local WIA Participant Report)

The "Pell Grant Recipient" information will now be stored in the WIA Case Table instead of the WIA Application Table.
